U.S. Pat. No. 7,232,569 REQUEST FOR CORRECTION OF ERROR IN PATENT Under 37 CFR § 1,323

Assignee requests that the following errors be corrected:

On the face page of the patent:

In the "Related U.S. Application Data" heading on the face page of the patent:

"Continuation of application No. 10/416,902, filed as application No. PCT/CA2001/01589 on Nov. 15, 2001" should be replaced with --Continuation of application No. 10/416,902, filed on May 15, 2003, which is a 371 of application No. PCT/CA2001/01589 filed on Nov. 15, 2001.--

In the Specification:

At Column 13, Line 7, "AcrY" should be replaced with -- AcrV--;

At Column 13, Line 33, "linus" should be replaced with --time a--;

At Column 13, Line 42, "gliatlenged" should be replaced with --challenged-;

At Column 13, Line 45, "det&nuined" should be replaced with --determined--;

At Column 18, in Table 2, "GCCCGTTTTGCCTATCAA" should be replaced with -- GCCCGTTTTGCCTATCAA (SEQ ID NO:16)--;

At Column 18, in Table 2, "GCGCCGATATCGGTACCC" should be replaced with --GCGCCGATATCGGTACCC (SEQ ID NO:17)--;

At Column 18, in Table 2, "TTCGTCGGCTGGCTTGATGT" should be replaced with --TTCGTCGGCTGGCTTGATGT (SEQ ID NO:18)--;

At Column 18, in Table 2, "GAACTCGCCCCTTCCATAA" should be replaced with --GAACTCGCCCCTTCCATAA (SEO ID NO:19)--;

In the Sequence Listing:

Please replace the Sequence Listing with the Substitute Sequence Listing submitted herewith.

Support for correction of the Sequence Listing is found in the specification as originally filed. More specifically, support for SEQ ID Nos: 11-19 is found in Table 2.

The instant Substitute Sequence Listing is intended to correct certain errors and omissions that were inadvertently introduced by way of the Amendment & Reply dated October 24, 2005 in response to the Office Action dated June 23, 2005, which pointed out

U.S. Pat. No. 7,232,569
REQUEST FOR CORRECTION OF ERROR IN PATENT
Under 37 CFR § 1.323

that the sequences shown in Table 2 lacked the requisite sequence identifiers and; therefore, required appropriate correction. Apparently, by the October 24, 2005 response to the June 23, 2005 Office Action request for including sequence identifiers in Table 2, Applicants' counsel inadvertently failed to include sequence identifiers for ALL of the sequences shown in Table 2; accordingly, sequence identifiers were provided only for SEQ ID NOs:11-15. Moreover, by the same October 24, 2005 response, Applicants' counsel inadvertently introduced error into the Sequence Listing for SEQ ID NO:5, apparently by reciting the sequence shown in SEQ ID NO:4 in place of SEQ ID NO:5, which is correctly shown in the specification as originally filed at pages 27-28.

As noted above, these corrections address printing, typographical, and omission errors. If there are any questions regarding this submission, the Office is invited to contact the undersigned counsel for Applicants.

Respectfully submitted,

Date: November 12, 2008
